Summer 2023 Marketing Internships

Solar Energy World is wanting to hire 2 interns this summer to work in the Marketing Department of [Solar Energy World](#). We are a residential solar company headquartered in Maryland. We will be moving into a brand-new headquarters building next month, located in Laurel, MD and very close to Route 95.

The interns will have the opportunity to work with our talented team of marketers on meaningful campaigns. We recently hired a new Digital Marketing Manager. He has a wealth of experience marketing for Microsoft and Cirque du Soleil, as well as other companies internationally. We are a growing regional installer, located in 9 states, which will expose interns to the challenges of generating a lead flow from different locations.

This is a paid position, full-time at their office in Laurel at the interchange of 95 and 198.

The best way for the applicant to apply is to email Jamie Ryan (VP of Marketing) directly at jryan@solarenergyworld.com. Applicants should send a cover letter, resume, e-mail address, and cell number.
